EDUCATION

SMK Wikrama Bogor
2022 - 2025

SKILLS

SOFT SKILLS

Teamwork
problem Solving
Communication
Adaptation

About Me

I am a young man born in Bogor in 2007, currently being trained at Vocational School Wikrama Bogor, I am able to work individually or collaborate with a team, I am 16 years old, even though I am still young, I have several reliable skills, Laravel, Tailwind CSS, Bootstrap, Figma, and a little video editing skills such as Adobe Premiere Pro.

Experience Projects

- Juny 2022
Project End of Semester
This is my first project to create a mosque donation website, create an appearance, set CRUD operations (Create, Read, Update, Delete) to carry out donations, I created this website using PHP, CSS and a little JS.
- December 2023
Website Masjid Nurul Amir
In this project, I was part of the FrontEnd Developer, organizing and managing the appearance so that the website was attractive to look at, and of course responsive so that the appearance on the cellphone was attractive.
- November 2023
Website Business
In this project I took an Industrial class for 1 week, how to use Vue Js for FrontEnd displays, capture APIs with Laravel, and create a Business Website.
